

Program Descriptions

Beginner Program is an introduction to the basic strokes that are required to play tennis (forehand, backhand, volley, serve, and the overhead) using games and drills that will also teach proper footwork and eye-hand coordination that will help to connect with the ball. Designed for juniors who have never played, or have very little experience.

Future Program is for our graduates of the beginner class, or juniors who have had some experience. This eight-week program provides drills and rallying games that will enhance your skills tremendously, and prepare you for match play.

Tournament Prep is for juniors that have a good understanding of techniques and strokes. Focus of program will be on improving techniques and introduction to strategy and mental toughness. Goal of this group is to get kids participating in local and state tournaments.

High Performance is for well experienced tennis players who focus primarily on tournament play, physical conditioning, strategy and mental toughness.
